EXPERIENCE

CAPGEMINI | Senior Software Engineer
Sep 2020 - Present

Movie Ticket Booking application
Sep 2020 - Jan 2021
As part of training curriculum, followed Agile Methodology to built a Full Stack project. It was a web application for booking movie shows. This was my first project where my contribution was to make the booking component.This is a team project where everyone made equal amount of efforts for its development
Role:React Front End Developer
Github: Movie-Ticket-Booking

Resource Management System
March 2021 - Oct 2021
A user-friendly application that will manage resources where new resources can be added , existing resources can be updated, rolled back or rolled off, be able to view all the resources and an excel file can even be imported on which we can perform all the above mentioned features.
Role:React Front End Developer+QA Engineer

DBB WSIT DIGITAL
Oct 2021-Present
It was a project for one of our companies client where I developed different components,created MI sheets,wrote Test cases and even did manual Testing
Role:React Front End Developer+QA Engineer
